

I will know
 $\frac{1}{2}$ of sets to 10.

A Do you remember your doubles?

1. $3 + 3 = \square$

2. $1 + 1 = \square$

3. $4 + 4 = \square$

4. $2 + 2 = \square$

5. $5 + 5 = \square$

6. $6 + 6 = \square$

B Count then circle $\frac{1}{2}$.

1.  = \square . Now circle $\frac{1}{2}$. I circled \square apple.

2.  = \square . Now circle $\frac{1}{2}$. I circled \square pears.

3.  = \square . Now circle $\frac{1}{2}$. I circled \square bananas.

4.  = \square . Now circle $\frac{1}{2}$. I circled \square oranges.

C Halves

1. $\frac{1}{2}$ of 2 = \square

2. $\frac{1}{2}$ of 4 = \square

3. $\frac{1}{2}$ of 6 = \square

4. $\frac{1}{2}$ of 8 = \square

5. $\frac{1}{2}$ of 10 = \square

D Draw $\frac{1}{2}$ an apple.

E Draw $\frac{1}{2}$ a cake.
