

Unit 13 - Problems

A Figure it out.

1. Dad went to the shops at four o'clock. Show the time.

2. 1st class has 23 pupils. 2 were at home sick.

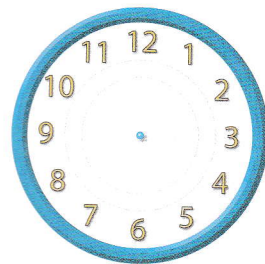

How many were at school?

3. There are 5 oranges in a pack. How many in three packs?

4. How many legs do three chickens have?

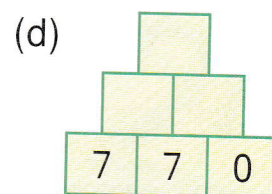

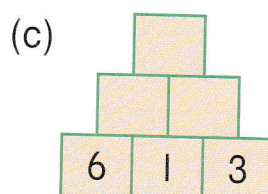

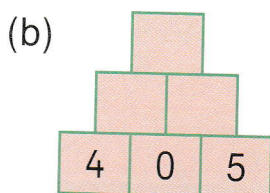

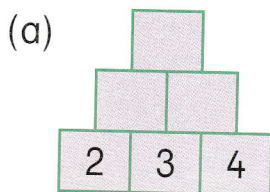

5. How many legs do two dogs have?

6. Mum had 8 buttons. Half of them were blue. How many were blue?

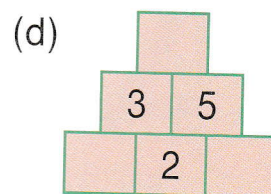

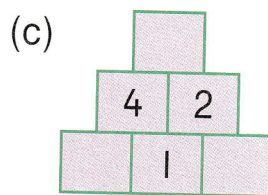

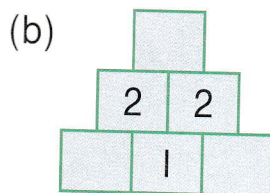

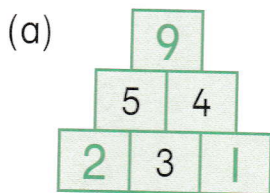

B Think it out. Build the number castles.

1. Add the two numbers below to find the number above.

2. Now can you find the missing numbers?

C Puzzle it out. Do the sums and colour the turtles.
