

# Kay Can't Wait

Kay saw flippers and goggles in the shop window. She really wanted them for her holidays at the seaside.

Every week, Kay got one euro pocket money. She put her euro in her piggy bank. It took a long time to save up the money. Finally, she was able to buy the flippers. She was delighted.

'In a few more weeks, I will have enough for the goggles,' she told Daddy. 'Just in time for the holidays ... I can't wait!' ■
