

## How to Look After Your Dragon

Congratulations on your new pet!  
Your dragon is **huge**, smelly and dangerous.  
But it's a lot of fun too!  
Just follow these simple rules.

1. Make sure your dragon has LOTS of food.  
Fifty dishes of stew a day should be plenty.  
You don't want it to eat you!

2. Use a long broom to clean your dragon.  
Don't stand too close!

3. Never argue with your dragon.  
You will not win!

4. Check your house is **fire-proof**.  
Otherwise, your dragon might  
burn it down by **accident**.

Good luck!
