

CAR FERRIES

Ireland is an island. If you want to go away, you must fly or sail.

Car ferries let you go away and bring your car. A car ferry has big doors at the end. A car or lorry can drive on to the ferry. Once you park your car on the ferry, you can go upstairs. The ferry is like a hotel. You can get something to eat or go shopping. You can sit and read. Some people walk on **deck** and look at the sea. ■
