Project - Country

- This week, the children could work on a project based on a country of their choice.
- They can complete these projects in their scrap books.
- They should display the name of the country at the top of the page.
- They should include the flag and pictures relating to the country.
- They can complete the rest of the page with information (such as capital city, famous people, population, currency, language, foods, sport etc.) about the country, either written or typed.
