

Project - Animal

- This week the children could work on a project based on an animal of their choice.
- They can complete these projects in their scrap books.
- They should display the name of the animal at the top of the page.
- They should include a drawing or pictures relating to the animal.
- They can complete the rest of the page with information (such as its home, the food it eats, a physical description etc.) about the animal, either written or typed.
