

Friday, May 22nd 2020

Good morning girls and boys. Gosh it's been a busy week. Well done for all the work. I hope you're enjoying the activities. Thank you for all the photos. I love seeing them!

Quiet Work

Mathemagic: Juniors-p82.Count the pictures and trace the correct number. Remember to draw the line for the set.

Seniors: p100 More measuring today. Remember the width of anything is the short side!

What a Wonderful World: p48 Time for the sheep to be shorn!! You can watch this if you google 'sheep shearing'! (A word of caution don't watch the cartoon version, it is not suitable!!).

Busy Work

Today we are going on an electrical item hunt!! Before we start it is really important to remember that you never touch anything that is plugged in! Take a room at a time and find all the items that need to be plugged in or use batteries. Start in the kitchen, then the living (sitting) room and then the bedroom.

Draw the items (or find pictures in old magazines that they can cut out and stick on) on a page... one for each room. Like the idea below.

Kitchen

Active Work

The Laundry Basket Challenge!!

1. Gather all the balls you have, big or small
(or make lots of sock balls)
 2. Put all the balls in a box or laundry basket.
 3. Place two other laundry baskets or boxes a distance away
from the first basket.
 4. If you have a spare box make a ramp (or use hardback
books) - optional!!
 5. Make signs for the scores. 50 points for the near target and
100 points for the one further away (as per the picture)
 6. Roll one ball at a time up the ramp (or simply throw it!) and
see which basket it lands in!
2. Have fun!
