

Junior and Senior Infants

Good morning everyone! I hope you got outside to do the water experiment yesterday! Some people sent lovely photos of floating fun!! Thanks again! As today is Friday we'll have PE exercises to do outside too, so check out the Active Section.

Quiet Work

Mathemagic: Juniors-p69-Big and small rectangles. Colour carefully!

Draw some big and small rectangles and cut them out and make a picture with them. Can you find rectangles around the house?

Seniors-skip on to page 93-do the sums, but also do some practice of writing numbers 1 to 10. Check the top of p92 to make sure you write them properly!

What a wonderful world: p40-you need to draw your house and then your family. Check all the homes around the frame and see if you can name them all! Pick four of those homes to draw and colour!

Busy Work

Today's challenge is to make a tent!! Get blankets or duvets, use chairs or a table to make the roof! If you can do it outside you can use an umbrella for height or make the tent in the trampoline (if you have one!) I'll be dying to see photos of the fun!

Active Work

Set up some stations in the garden or living space.

1. A place to bounce a ball
2. A place to do jumping jacks
3. A bucket or box to throw a ball or toy into
4. A place to skip (with or without a rope)
5. A space to hop from one spot to another on one foot and back on the other !

Have a nice weekend everyone. Next week is Active Week so there'll be lots of activities to do!
