

# Edmondstown's STEAM Challenge 4

## Let's get building

Construct a bridge that is at least 30cm long using items from around your house.

Suddenly, a heavy weight is driving across. Can your bridge stay up with 100g sitting on top?

Send pictures/videos of your bridges to [edmondstownns@hotmail.com](mailto:edmondstownns@hotmail.com)

**Note:** Entries will be put on the website!

Watch the video from 18:02-19:19 to learn how best to build your bridge.

Watch 19:19-23:12 to follow a step-by-step approach on how you could build your bridge
