

Seesaw instructions for the week commencing: 1st of June

This week I would like the children to complete the Religion worksheet, based on God's creation (Friday-Pg.50). This sheet asks the children to name and draw their favourite:

1: Tree, plant or flower

2: Land animal

3: Sea creature

After they have completed the sheet, I would like them to give a physical description of each and perhaps give some facts about each one as well. (As if it were a mini-project)

They could do this by either sending a picture of the worksheet on Seesaw and adding a voice recording OR making a short video presenting information about all three, using the completed worksheet to help them.
